**EXAMINER'S AMENDMENT**

***Response to Amendment/Remarks***

[1] In view of Applicant's amendment to the claims, see response filed 13 September 2005, the rejection of claim 1 under 35 U.S.C. §112 2d paragraph has been withdrawn.

Claims 2, 4 and 8 were previously indicated to be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims, and if re-written to overcome the rejection of claim 1 under 35 U.S.C. §112 2d paragraph. New claims 12-20 depend from previously indicated as allowable claims 2, 4, and 8, and do not appear to introduce new matter. New independent claim 22 appears to include previously indicated allowable subject matter found in claims 4 and 8, and is therefore also allowable over the prior art of record.

[2] An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Gerk on 26 September 2005.

The application has been amended as follows:

In claim 22, line 9,

REPLACE "both sides" with upper and lower sides

[3] The following is an examiner's statement of reasons for allowance:

The prior art of record does not appear to teach or fairly suggest a plastic nut having a flange being enclosed by a separate sealing washer on its 1) upper, 2) lower, 3) inner rim, and 4) outer/circumferential edge, and having one or more of: a tapered shoulder (7), sealing lip (17), protrusions (21) facing the component.

The abovementioned examiner's amendment provides clarity to what "both sides" of the flange refers to: "upper side" being the surface of the flange *facing away* from the snap action hooks and component, and "lower side" being the surface of the flange *facing* the snap action hooks and component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
